

# Canadian Woodworking eNewsletter

Issue 45  
March 2008

## From the Publisher

Paul Fulcher

Along with our usual coverage of new products this month, we are introducing a new [Readers](#)

## [Write](#) column.

We often receive woodworking tips, comments on products, short reviews of products, new takes on woodworking techniques, and other interesting tidbits. Beginning in this issue we'll be selecting the best of the submissions and printing them in upcoming eNewsletters.

Each published submission will receive a prize from one of our advertisers. Our first winner is Tom West, of Baden, ON, who shares a cautionary note on using [thin walled containers with cyclone lids](#).

Tom receives a \$50 gift certificate from [R&D Bandsaw](#), which he can redeem for Tufftooth® bandsaw blades, bandsaw accessories, Olson scroll saw blades, Kreg products and more.

So flex those finger muscles and send us your tips, suggestions, comments, expositions, suggestions, reviews, and remarks.

## **Rejuvenate Floor Restorer**

Available at Home Depot

Rejuvenate quickly and easily transforms worn and dingy hard floor surfaces to like-new condition. The product is a polymer-based floor finish that fills in scratches, revives natural luster and shine while also sealing and protecting against future scratches and stains.

Apply it to any hard floor surface – including wood, linoleum, ceramic tile and laminate – without the high cost and hassle of removing old flooring and purchasing new. The product dries completely within 40 minutes and adds up to 50% more traction, making floors, banisters, hand-rails, balconies and stairs safer and less slippery. In addition,

Rejuvenate contains a UV barrier to protect surfaces against damaging UV rays, greatly reducing the risk of floor discoloration and adding years of life to flooring. \$19.99
